* 1H FY2011 Plan: Plan announced at the 1Q FY2011 results meeting **UIEP : Urban Infrastructure & Environmental Products Company

***HPP : High Performance Plastics Company

Housing: Revenue and profit rose due to the improved marginal profit resulting from the expanded sales volume of housing units and sales in the Living Environment business and the progress in cost-reduction efforts.

UIEP: Revenue increased on expanding sales volumes and the securing of profit margins, particularly for the core PVC products. Operating income also improved year on year.

HPP: Sales increased, but profits edged down due to one-time costs from new consolidations and the forex impact.

1. Leveraged the domestic core businesses

-Securing a plentiful order backlog at the beginning of the year led to the solid sales results. First half orders exceeded last year's first half level (Housing)

-Volume increased partially due to the reconstruction demand (UIEP)

2. Sales prices and cost reductions fully offset the rises in raw material and component costs

3. Advanced in preparing for business growth and revenue base fortification for next fiscal year and beyond

Business Growth and Revenue Base Fortification

	Field	Measures
Expansion of Strategic Business Fields	IT	Expansion of the IT-related business by acquiring an ITO film business
	MD	Start of full-fledged development of overseas operations, using the acquired major U.S. diagnostic reagents business as a starting point
Strengthen of Core Business	Housing	Shift to the integrated production and sales operations in Tokyo, Chubu, and Kinki
	Housing	Full-fledged development of the housing business in Thailand (large expansion of production capacity)
	UIEP	Business alliance with Swing Corporation, Construction of the "full-package" order system

Analysis of Operating Income for the 1H of FY2011 (YoY)

*1 Domestic Core Business: Housing Business, UIEP (Domestic Core Business)

*2 Frontier 7 Businesses: (HPP) AT related business, IT related business, Medical related business, (UIEP) Pipeline Renewal business, Water infrastructure business (overseas), Performance materials business, (Housing) Living Environment business.

3: Excluding the effect of newly consolidated subsidiaries

*Note: Includes selling price of Housing Company within the sales quantity and composition

Market

- Domestic demand recovered from the impact of the disaster; business slowed from an uncertain economic outlook and other factors
- The economic growth and expansion continued in developing countries in Asia and other regions, but the pace slowed somewhat
- The recovery pace slowed in the U.S. on slowing growth in private consumption and in other sectors
- Fiscal problems and other issues caused an economic slowdown in Europe
- The Japanese yen sustained historical high levels versus the U.S. dollar and euro
- Key raw material prices stabilized

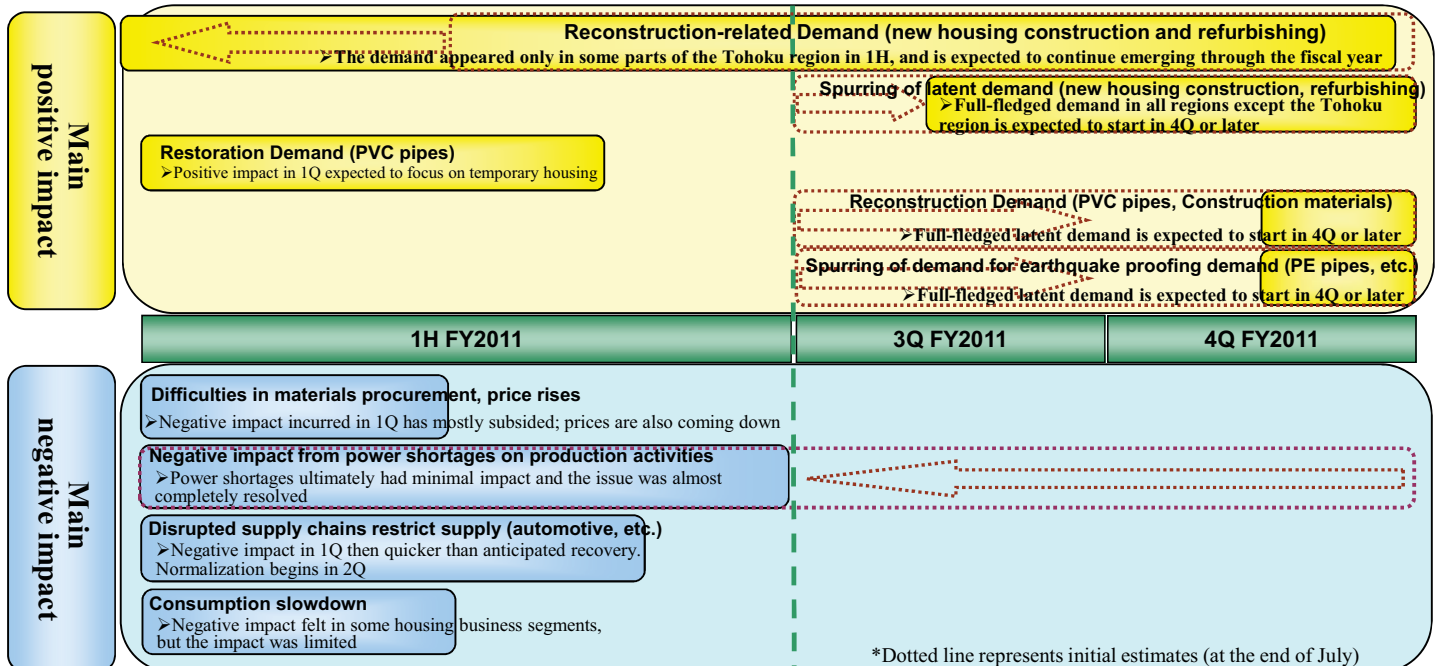

Progress Report on Main Businesses

	Business Field	Progress in 1H
Global Businesses	Automobile Field	Sales rose year on year by capturing demand in developing countries, overcoming the impacts from the strong yen and reduced domestic auto production in 1Q due to supply chain problems * In 1H FY2011, sales for AT-related business rose 1% (y-o-y)
	IT & Electronics Material Field	Sales of fine chemical products rose year on year, despite impacts from stockpiling inventories by clients in 1Q and LCD panel production adjustments in 2Q Sales of optical materials (tapes) declined, due to production adjustments for TV, mobile phones, and other end products * In 1H FY2011, sales for IT-related business fell 2% (y-o-y)
	Medical Field	Sales rose year on year, as ongoing sales expansion for diagnostic reagents and testing equipment overcame the impact from reduced demand in disaster-stricken areas * In 1H FY2011, sales of Sekisui Medical Co., Ltd. in Japan rose 4% (y-o-y)
	Pipeline Renewal Field	The project backlog increased but some orders were delayed until 2H, due to the slowing economies in the U.S. and Europe * In 1H FY2011, sales of pipeline renewal business rose 18% (y-o-y)
Domestic Businesses	Water Infrastructure Field	Sales and volume rose year on year, partially due to the appearance of reconstruction demand focused on temporary housing * In 1H FY2011, sales of water infrastructure business (domestic) rose 6% (y-o-y)
	Housing Field	1H new housing construction orders exceeded our initial plan by capturing some restoration demand Sales of the Living Environment business achieved our target despite disaster-related impacts, including component shortages * In 1H FY2011, housing unit order rose 3% and sales of Living Environment business rose 7%

Expected Impact of Earthquake Damage (As of the End of 2Q)

- The lack of a concrete restoration policy delayed the emergence of restoration-related demand; full-fledged demand is expected to start next fiscal year
- The earthquake's overall negative impact was not as great as we had anticipated and had almost disappeared by the end of 1H

Impact on Net Sales (1H)
 HPP: -1.6 billion yen
 UIEP: +1.8 billion yen
 Housing: A negligible impact

Key Measures for the Second Half of FY2011

1. Fortify the housing, water infrastructure, and other core domestic businesses; expand overseas sales of high value-added products
2. Maintain or raise sales prices and continue with cost reduction to steadily offset the rises in raw material and component costs
3. Increase investment return and establish a structure for strategic investment projects

Analysis of Operating Income for FY2011 (YoY)

*Note: Includes selling price of Housing Company within the sales quantity and composition

Market

- Recovering domestic demand but risk of deteriorating business conditions from the strong yen and other factors
- Continuing overall brisk growth in developing countries in Asia and other regions
- Concern of eroding business conditions in the U.S. when economic stimulus policies expire at the fiscal year end
- Concern of worsening business conditions in Europe caused by the deepening debt problems

Risk

- The yen will remain strong versus the U.S. dollar and euro
- Key raw material prices stabilized
- Potential for demand fluctuation caused by the prolongation and reactivation of domestic various policies

Demand Estimates in Main Business

Business Field	Demand Estimates
Automobile Field	Forecast for increased demand from 1H and YoY as a result of continuing recovery in Japan from the impact of the reduced auto production and ongoing brisk demand in developing countries
IT & Electronics Material Field	Forecast for 1H market environment to continue in 2H Ongoing market growth for smart phones, tablets, and other devices
Medical Field	Forecast for demand growth from 1H to 2H, supported by post-earthquake market recovery and influenza-related demand
Pipeline Renewal Field	Forecast includes concern of declining public works demand in the U.S. and Europe due to fiscal budget tightening, but we expect steady budgets for restorative and renewal
Water Infrastructure Field	Increases in new housing construction starts, anti-seismic related demand, etc.
Housing Field	Forecast for the 2Q market environment to continue Continuing 1H trend of restoration-related demand emerging in some parts of the Tohoku region Government is still discussing possible extension or reactivation of support policies; at this stage, the potential impact is uncertain

Sales and Orders in Main Businesses (y-o-y)

Overview for the First Half of FY2011

- IT** : -Sales volume of optical materials (tapes) fell short of our target due to weak demand for use in TVs and existing-model mobile phones
 -Sales rose YoY for fine chemical products for LCD materials, despite the wide fluctuation in orders after the earthquake and the impact from the market conditions
- AT** : -Sales volume rose YoY as demand in developing countries overcame the reduced domestic auto production and forex impacts
 -JV auto parts molding business established in India in anticipation of local market growth
- MD** : -Sales rose YoY, led by diagnostic reagents (but fell short of our target due to the earthquake)
 -Operating infrastructure development for Sekisui Diagnostics
