

Integrated Report 2021

Year Ended March 31, 2021

SEKISUI

Innovation for the Earth

SEKISUI CHEMICAL CO., LTD.

Innovation for the Earth

In order to realize sustainable society, we support the basis of LIFE and will continue to create “peace of mind for the future.”

Viewing changes in the social environment as a business opportunity, SEKISUI CHEMICAL Group is working to continuously generate innovation to help resolve social issues drawing on the solutions created by its varied and diverse technologies as well as the trust it enjoys with its stakeholders. By contributing to the Earth and people’s lives, we are also endeavoring to enhance the sustainability of society in concert with efforts to secure our sustainable growth as a company.

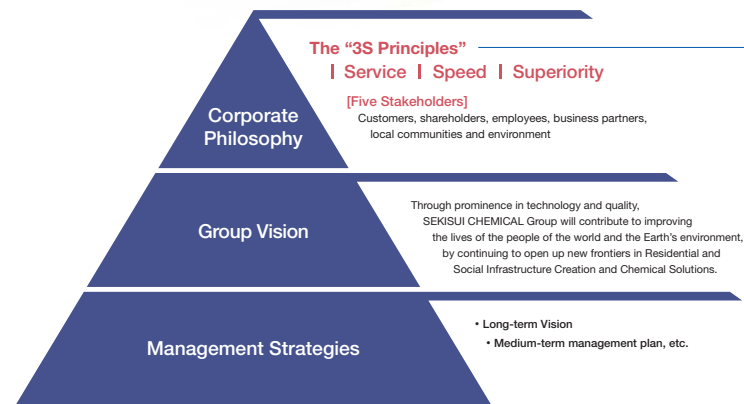

Our Principles

SEKISUI CHEMICAL Group’s Principles comprise the three Corporate Philosophy, Group Vision, and Management Strategy elements. Far from consistently enjoying a favorable tailwind, SEKISUI CHEMICAL Group has overcome a host of challenges since its foundation in 1947 through the underlying strength of its Corporate Philosophy “3S principles,” which were established based on the following intent.

“The difference between people living their lives in accordance with ideals and those simply going where the currents and eddies of life take them becomes ever more apparent as the long years of their lives pass. The same is true of business. Only when employees mass under a common ideal arising from a basic policy of business management can the company demonstrate its great power as a corporate community.”

In order for the Group to achieve sustainable growth in an increasingly uncertain world, it is imperative that every employee take the initiative and independently participate in constantly overcoming each challenge to respond swiftly to changes in the market, and that efforts are made to accelerate preparations for anticipated future megatrends and to steadily implement measures that contribute to solving social issues. Adopting a long-term outlook, we will work to continue generating innovations that contribute to social issues.
