SEKISUI CHEMICAL Group’s Principle

Through prominence in technology and quality, SEKISUI CHEMICAL Group will contribute to improving the lives of the people of the world and the Earth’s environment, by continuing to open up new frontiers in Residential and Social Infrastructure Creation and Chemical Solutions.

The 3S Principles

Service

At SEKISUI, we serve our stakeholders by creating social, environmental and economic value through responsible business practices.

Speed

At SEKISUI, we accelerate innovation by eagerly taking on new challenges, adapting to change and staying ahead of the times.

Superiority

At SEKISUI, we contribute to society by helping to solve social issues with our superior technologies and quality.

SEKISUI CHEMICAL Group’s Principles comprise the three elements of Corporate Philosophy, Group Vision, and Management Strategy. Far from consistently enjoying a favorable tailwind, SEKISUI CHEMICAL Group has overcome a host of challenges since its foundation in 1947 through the underlying strength of its Corporate Philosophy 3S principles, which were established based on the following intent.

“The difference between people living their lives in accordance with ideals and those simply going where the currents and eddies of life take them becomes ever more apparent as the long years of their lives pass. The same is true of business. Only when employees mass under a common ideal arising from a basic policy of business management can the company demonstrate its great power as a corporate community.”

For the Group to achieve sustainable growth in an increasingly uncertain world, it is imperative that every employee take the initiative and independently participate in constantly overcoming each challenge to respond swiftly to changes in the market, and that efforts are made to accelerate preparations for anticipated future megatrends and to steadily implement measures that contribute to solving social issues. Adopting a long-term outlook, we will work to continue generating innovations that contribute to social issues.
